Accessories (sold separately)

SAVIO Pond Free® Waterfall Well

(pump not included)

07-SV-105

Read entire instructions prior to assembly and operation.

WW1000

OPERATING MANUAL

2. The knockouts located at the base of the housing can be used to connect perforated plastic PVC pipe for wide catchment basins and other drainage applications.

1. The Waterfall Well provides five easy-to-use knockouts on each side of the upper housing. These knockouts provide multiple possibilities for PVC, tubing and flexible hose connections. Choose the diameter and placement which best suits your application, then use a keyhole saw or matte knife to remove the knockout.

Knock Outs

For optimum results fill the basin around the waterfall well by hand with round gravel or cobble 2" - 4" dia. to a depth of 8". To provide a finished appearance, place a layer of decorative stone or beach pebble 2"-3" deep over the top of the reservoir.

Gravel Size

The Pond Free® Waterfall Well is designed for use in gravel filled water catchment basins 22" - 24" deep. Use optional 18" extensions (sold separately) for deeper basins.

Pond Free® Packages

The Pond Free® Waterfall Well simplifies construction of dramatic vanishing waterfalls and endless streams™. Patent pending design protects your valuable pump equipment from the forces of rock and water with a structurally tough injection-molded housing. Recommended for pump flows up to 15,000 gph.

COMPONENTS

waterfall well housing x2 • waterfall well lid

Assembly and Installation

- A) Remove Waterfall Well from the box.
- B) Place the Waterfall Well on a flat surface with the open sides facing each other.

- A) Place the two open sides close together with the locking tabs aligned.
- B) Press locking tab and insert into slot.

- A) Continue to assemble the locking tabs from the bottom of the Waterfall Well to the top ensuring each tab is locked securely into place.
- B) Install push pins into holes in alignment tabs to secure sides together.
- C) Once assembly of the housing is complete, place the lid onto the Waterfall Well.

Applications

The Waterfall Well can be used for a variety of applications.
